

Baby Afghan in Basic Stitch

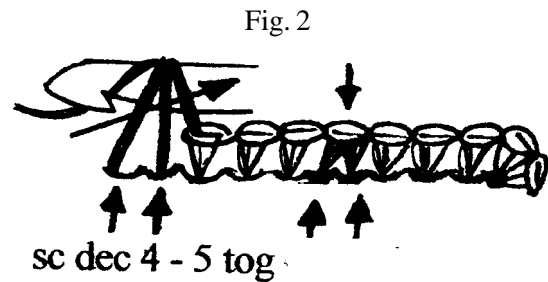

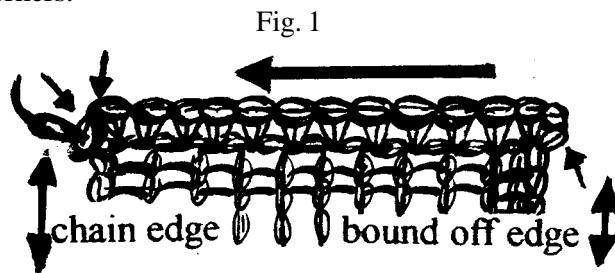

Worsted yams DC and LC, 9 oz. each, for size 30 x 30 inches, plus edging all around.

STEPS

1. Ch 100 sts with DC and work in BS alternating colors until it forms square. Fold it to form a triangle to be sure. 2. Bind off with DC on PU row.

FIRST EDGING Fig. 1

Follow instructions for first sc edging on sample swatch; but for larger pieces it is necessary to dec the 4th and 5th sc along the starting chain row and also the bound off row. This is done to avoid a looser edge than on the sides where sc sts are farther apart, 1 sc for each color row. This makes all sides about even. Do 2 sc on all corners.

DECREASE ROW Figs. 2, 3

After turning corner on the starting chain row, do * 3 sc, do the 4th and 5th tog, YO and pull through, rep from * to next corner. Count sc sts to check number on row. Continue to starting corner, sl st to join to 1st sc. Edges should match opposite sides.. Starting and bound off rows should also match each other. They may differ 2 or 3 sts from side rows, not enough to be noticed.
